Re: Release of Claims, Doubleshoe #1, S/017/028 and Doubleshoe #2, S/047/059, Garfield and Uintah Counties, Utah

Dear Mr. Hirst:

Thank you for your prompt submittal of the 1994 annual reports for the Doubleshoe #1 and Doubleshoe #2 received by this office December 28, 1994.

Your reports indicate that you abandoned the claims in August 1994. However, your reports fail to indicate whether any reclamation was performed on the disturbances that may be associated with the mine sites. Before we may grant a formal release from the reclamation obligations associated with your small mining permits, an inspection must be performed to confirm that the mining-related disturbances have been successfully reclaimed.

We will notify you prior to performing our inspection of these mine sites, so you may arrange your schedule to accompany us. It is important to remember that until you are formally released by this office, you will continue to be held responsible for all pertinent reclamation obligations associated with your approved Small Mining Operations Notices of Intention.

Please contact me or any of the Minerals Regulatory Program staff should you have questions or concerns in this regard.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
